

Simpul Mixing and Mastering Contract

1. Any additions to the initially agreed upon number of songs to be mixed and mastered may result in a price increase.
2. The number of mix revisions allowed with the initial agreement will be two. (i.e., After the initial mix you get two revisions to make it exactly how you want it) Any further revisions may result in a price increase.
3. The number of master revisions allowed with the initial agreement will be two. (i.e., After the initial master you get two revisions to make it exactly how you want it) Any further revisions may result in a price increase.
4. The vinyl mastering process is different from the digital mastering, so if you want another version of your master, please let us know ahead of time. There's a 25% additional charge for each master version that's made at the same time as the other versions.
5. Each mix and master is for one recording of the song (i.e., you can't suddenly say, "We want you to mix or master this acoustic version with the orchestra instead of that rock version you were working on all week.")
6. Instrumental versions can be provided upon request (All requests must be made in advance).
7. All payment arrangements will be agreed upon up front. A minimum of half is due up front, and the remaining balance is due prior to receiving any CD's, WAV's, or high quality mp3's.
8. The engineers credits should appear as follows:

Songs mixed and mastered by Sef Idle at Simpul Studio
